

Free Motion Appliqué with Embellishments

Peg Pennell
pegpennell.com

You will need the list of supplies for the one day class plus these Additional Supplies for two day class

- **Embellishments**- Beads of assorted sizes (I used seed beads as well as slightly larger beads, and slightly smaller beads) bugle beads, small buttons, charms or whatever else suits your fancy. These are to enhance the appliqué fabrics, so use those fabrics as your guide in choosing colors.
- **Beading thread**-my favorite is Nymo thread, which comes in many colors. If you cannot find beading thread, you can use hand quilting thread or regular thread. I recommend a thread conditioner (beeswax, Thread Heaven or the like to help prevent knotting.)
- **Hand sewing needle**- This does not have to be a beading needle. I find that small sized hand quilting needles work quite well, as they are not as long and bendy as beading needles. **Important!** Be sure your needle will fit through your chosen beads.
